

PROGRAM 1

GIF Emoji Design (1 x 2 hour session)

Concept

Students will be designing a series of emojis based on their interpretation of human emotions, and their correlating facial features. These will then be transferred onto mini discs, and painted using acrylic paints. Once completed, your Starry Arts teacher will photograph the finished emoji designs, and students will be able to create fun GIFs, entirely unique to them, using an animation maker on our website.

Learning Outcomes

1. Learning basic animation theory includes animation history and the popular cartoon stories in the world and how these technologies were created.
2. Improving basic character drawing and painting skills.
3. Developing a personal style to describe the unique human emotions they can recognise.
4. Observing 3D shapes and how it can be matched with their 2D emoji painting

Visual arts

VAES 1.1:

- Make different kinds of artwork including paintings, drawings, digital artworks, and videos
- Continues to explore characteristics of people and focuses more on details, such as facial features.

The GIF Emoji Design is applicable to all stages and correlates with various stages in various KLAs. The teacher will differentiate this topic based on the students' level of understanding.

Additional KLAs

Mathematics

MAe-6NA Groups, shares and counts collections of objects, describe using everyday language and records using informal methods

MA3-1WM Describes and represents mathematical situations in a variety of ways using mathematical terminology and some conventions

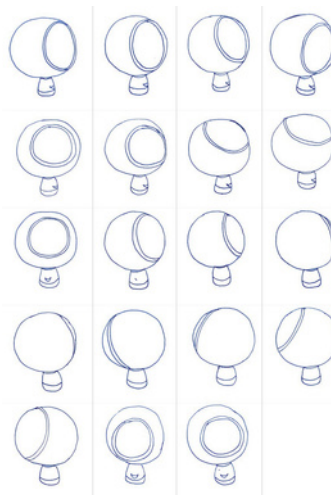

MA3-14MG Identifies three-dimensional objects, including prisms and pyramids, on the basis of their properties, and visualises, sketches, and constructs them given drawings of different views

PDHPE

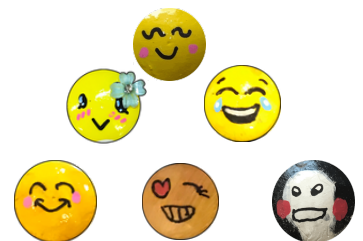

PDe-3 Communicates ways to be caring, inclusive, and respectful of others

English

ENe-1A Communicates with peers and known adults in informal and guided activities demonstrating emerging skills of group interaction
